

December 31, 2021

Honorable Jesse J. Salalu
Governor, State of Yap
Federated States of Micronesia

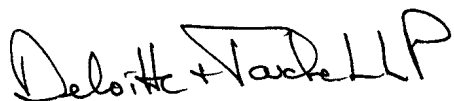

Dear Governor Salalu:

We have performed an audit of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Yap (the State) as of and for the year ended September 30, 2020 (the "financial statements"), in accordance with auditing standards generally accepted in the United States of America ("generally accepted auditing standards") and have issued our report thereon dated December 31, 2021, which contained an adverse opinion for the omission of a certain component unit, and includes explanatory paragraphs concerning collectability of receivables and the impact of COVID-19.

We have prepared the following comments to assist you in fulfilling your obligation to oversee the financial reporting and disclosure process for which management of the State is responsible.

This report is intended solely for the information and use of the State's management, the Office of the Governor, the Office of the FSM National Public Auditor, federal awarding agencies, pass-through entities, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties. However, this report is also a matter of public record.

Most respectfully,

A handwritten signature in black ink that reads "Deloitte + Touche LLP". The signature is stylized, with the "D" and "T" being particularly prominent.

cc: The Management of the State of Yap

OUR RESPONSIBILITY UNDER GENERALLY ACCEPTED AUDITING STANDARDS, GENERALLY ACCEPTED GOVERNMENT AUDITING STANDARDS AND THE UNIFORM GUIDANCE

Our responsibility under (1) generally accepted auditing standards, (2) the standards applicable to financial audits, contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("generally accepted government auditing standards") (generally accepted auditing standards and generally accepted government auditing standards are collectively referred to herein as the "Auditing Standards") and (3) the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance) has been described in our engagement letter dated January 28, 2021. As described in that letter, the objectives of an audit conducted in accordance with the Auditing Standards and the Uniform Guidance are:

- To express an opinion on the fairness of the State's financial statements and the accompanying supplementary information, in relation to the financial statements as a whole, as for the year ended September 30, 2020 (the "financial statements"), in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles"), in all material respects, and to perform specified procedures on the required supplementary information for the year ended September 30, 2020;
- To express an opinion on whether the supplementary information that accompanies the financial statements, including the Schedule of Expenditures of Federal Awards, is fairly stated, in all material respects, in relation to the financial statements as a whole;
- To report on the State's internal control over financial reporting and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters for the year ended September 30, 2020, based on an audit of financial statements performed in accordance with generally accepted government auditing standards; and
- To express an opinion on the State's compliance with requirements applicable to each major program and report on the State's internal control over compliance in accordance with the Uniform Guidance.

Our responsibilities under the Auditing Standards and the Uniform Guidance include forming and expressing an opinion about whether the financial statements that have been prepared with the oversight of management and the Office of the Governor are presented fairly, in all material respects, in conformity with generally accepted accounting principles. The audit of the financial statements does not relieve management or the Office of the Governor of their responsibilities.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether caused by fraud or error. In making those risk assessments, we considered internal control over financial reporting relevant to the State's preparation and fair presentation of the financial statements in order to design audit procedures that were appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the State's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over financial reporting. Our consideration of internal control over financial reporting was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses.

We also considered the State's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance. Our audit does not, however, provide a legal determination of the State's compliance with those requirements.

SIGNIFICANT ACCOUNTING POLICIES

The State's significant accounting policies are set forth in Note 1 to the State's 2020 financial statements. During the year ended September 30, 2020, there were no significant changes in previously adopted accounting policies or their application, except for the following pronouncements adopted by the State:

During the year ended September 30, 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which postpones the effective dates of GASB Statement No. 84, 89, 90, 91, 92 and 93 by one year and GASB Statement No. 87 by 18 months; however, earlier application of the provisions addressed in GASB Statement No. 95 is encouraged and is permitted to the extent specified in each pronouncement as originally issued. In accordance with GASB Statement No. 95, management has elected to postpone implementation of these statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. This Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 84 will be effective for fiscal year ending September 30, 2021.

In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. Management believes that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 87 will be effective for the fiscal year ending September 30, 2022.

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 89 will be effective for fiscal year ending September 30, 2022.

In March 2018, GASB issued Statement No. 90, *Majority Equity Interests - An Amendment of GASB Statements No. 14 and 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 90 will be effective for fiscal year September 30, 2021.

SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 91 will be effective for fiscal year ending September 30, 2023.

In January 2020, GASB issued statement No. 92, *Omnibus 2020*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the effective date of Statement No. 87, *Leases*, and Implementation Guide No. 2019-3, *Leases*, for interim financial reports, the terminology used to refer to derivative instruments and the applicability of certain requirements of Statement No. 84, *Fiduciary Activities*, to postemployment benefits. The requirements related to the effective date of GASB Statement No. 87 and Implementation Guide 2019-3, reissuance recoveries and terminology used to refer to derivative instruments are effective upon issuance. The remaining requirements of GASB Statement No. 92 is effective for the fiscal year ending September 30, 2022.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. The primary objective of this statement is to address those and other accounting and financial reporting implications of the replacement of an IBOR. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. In accordance with GASB Statement No. 95, GASB Statement No. 93 will be effective for fiscal year ending September 30, 2022.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements. This statement also provides guidance for accounting and financial reporting for availability payment arrangements. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. GASB Statement No. 94 will be effective for fiscal year ending September 30, 2023.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. GASB Statement No. 96 will be effective for fiscal year ending September 30, 2023.

SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. Management does not believe that this statement, upon implementation, will have a material effect on the financial statements. GASB Statement No. 97 will be effective for fiscal year ending September 30, 2022.

We have evaluated the significant qualitative aspects of the State's accounting practices, including accounting policies, accounting estimates and financial statement disclosures and concluded that the policies are appropriate, adequately disclosed, and consistently applied by management.

ACCOUNTING ESTIMATES

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are ordinarily based on knowledge and experience about past and current events and on assumptions about future events. Significant accounting estimates reflected in the State's 2020 financial statements include management's estimate of the allowance for uncollectible accounts, which is determined based upon past collection experience and aging of the accounts, and management's estimate of depreciation expense, which is based on estimated useful lives of the respective capital assets. During the year ended September 30, 2020, we are not aware of any significant changes in accounting estimates or in management's judgments relating to such estimates.

UNCORRECTED MISSTATEMENTS

Our audit of the financial statements was designed to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. We have attached to this letter, as Appendices A and B to Attachment I, summaries of uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest and prior period that we presented to management and were determined by management to be immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

CORRECTED MISSTATEMENTS

Misstatements were brought to the attention of management as a result of our audit procedures and were corrected by management during the current period and are listed as Attachment I.

DISAGREEMENTS WITH MANAGEMENT

We have not had any disagreements with management related to matters that are material to the State's 2020 financial statements.

OUR VIEWS ABOUT SIGNIFICANT MATTERS THAT WERE THE SUBJECT OF CONSULTATION WITH OTHER ACCOUNTANTS

We are not aware of any consultations that management may have had with other accountants about auditing and accounting matters during 2020.

SIGNIFICANT FINDINGS OR ISSUES DISCUSSED, OR SUBJECT OF CORRESPONDENCE, WITH MANAGEMENT PRIOR TO OUR RETENTION

Throughout the year, routine discussions were held, or were the subject of correspondence, with management regarding the application of accounting principles or auditing standards in connection with transactions that have occurred, transactions that are contemplated, or reassessment of current circumstances. In our judgment, such discussions or correspondence were not held in connection with our retention as auditors.

OTHER SIGNIFICANT FINDINGS OR ISSUES ARISING FROM THE AUDIT DISCUSSED, OR SUBJECT OF CORRESPONDENCE, WITH MANAGEMENT

Throughout the year, routine discussions were held, or were the subject of correspondence, with management. In our judgment, such discussions or correspondence did not involve significant findings or issues requiring communication to the Office of the Governor.

SIGNIFICANT DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

In our judgment, we received the full cooperation of the State's management and staff and had unrestricted access to the State's senior management in the performance of our audit.

MANAGEMENT'S REPRESENTATIONS

We have made specific inquiries of the State's management about the representations embodied in the financial statements. In addition, we have requested that management provide to us the written representations the State is required to provide to its independent auditors under generally accepted auditing standards. We have attached to this letter, as Attachment I, a copy of the representation letter we obtained from management.

MODIFICATION TO OUR OPINION

The State's component units' column does not include the financial statements of the Yap Fishing Authority. Accounting principles generally accepted in the United States of America require the financial statements of the Yap Fishing Authority be reported with the financial data of the State's component units' column unless the State also issues financial statements for the financial reporting entity that include the financial data for its component units. The State has not issued such reporting entity's financial statements. Because of the departure from accounting principles generally accepted in the United States of America, the assets, liabilities, net position, revenues, and expenses of the aggregately discretely presented component units could not be determined.

EMPHASIS-OF-MATTER PARAGRAPHS

Receivables from the FSM National Government

As discussed in Note 3 to the financial statements, the State is in discussions with the FSM National Government to determine the ultimate collectability of certain receivables due from the FSM National Government in consultation with the grantor agency arising from Compact sector grant transactions.

EMPHASIS-OF-MATTERS PARAGRAPHS, CONTINUED

COVID-19

As discussed in the Note 11 to the financial statements, the State has determined that the COVID-19 pandemic may negatively impact its result of operations and net position. The State is unable to reasonably estimate its ultimate financial impact.

Our opinion is not modified with respect to these matters.

CONTROL-RELATED MATTERS

We have issued a separate report to you, also dated December 31, 2021, on the State's internal control over financial reporting and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, which was based on the audit performed in accordance with *Government Auditing Standards*. We have also issued a separate report to you, also dated December 31, 2021, involving the State's compliance with requirements applicable to each major program and on internal control over compliance in accordance with the Uniform Guidance. Within those reports, we noted certain matters that were considered to be material weaknesses and significant deficiencies under standards established by the American Institute of Certified Public Accountants.

Instead, the State management believes it is more economical to manage its risks internally. In the event of claim settlements and judgments, the State reports all of its risk management activities in its General Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. No losses have occurred as a result of these risks in any of the past three fiscal years.
