**COMBINED FINANCIAL STATEMENTS
AND INDEPENDENT ACCOUNTANTS'
COMPILATION REPORT**

SEPTEMBER 30, 2007

INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

Honorable Emmanuel Mori
President,
Federated States of Micronesia

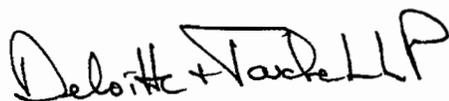

We have compiled the accompanying combined financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Federated States of Micronesia (FSM) National Government and the States of the FSM as of and for the year ended September 30, 2007, and the other supplementary information as set forth in pages 13 through 33, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The other supplementary information is presented only for purposes of additional analysis and is not a required part of the basic combined financial statements. The combined financial statements include the accounts of the FSM National Government and the four States of the FSM, being the State of Chuuk, the State of Kosrae, the State of Pohnpei, and the State of Yap. These entities comprise the sovereign nation of the Federated States of Micronesia.

A compilation is limited to presenting, in the form of financial statements and other supplementary information, information that is the representation of management. We have not audited or reviewed the accompanying combined financial statements and other supplementary information and, accordingly, we do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all disclosures required by accounting principles generally accepted in the United States of America. If the omitted disclosures were included in the combined financial statements, they might influence the user's conclusions about the combined financial position and combined results of operations of the FSM National Government and the States of the FSM. Accordingly, these combined financial statements are not designed for those who are not informed about such matters.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the respective financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the FSM National Government, the State of Chuuk, the State of Kosrae, the State of Pohnpei, and the State of Yap as of and for the year ended September 30, 2007. Those financial statements were the basis from which we compiled the accompanying combined financial statements. Copies of the respective financial statements and the independent auditors' reports dated June 23, 2008, June 10, 2008, June 27, 2008, June 16, 2008, and June 30, 2008, respectively, which expressed certain qualified opinions, may be obtained from the FSM Office of the Public Auditor.

The FSM National Government and the States of the FSM have not presented the Management's Discussion and Analysis and budgetary comparison information that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Reconciliation of the Combined Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds to
the Combined Statement of Activities
Year Ended September 30, 2007
(See Accompanying Independent Accountants' Compilation Report)

Amounts reported for governmental activities in the combined statement of activities on page 3 are different because:

Net change in fund balances - total governmental funds from page 5	\$ 18,330,790
Governmental funds report capital outlays as expenditures. However, in the combined statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period, including increases to construction in progress	(7,421,714)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(6,339,686)
Some expenses reported in the combined statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. These expenses include accrued annual leave and claims and judgments payable that are reported in the combined statement of activities, but not in funds	<u>(880,615)</u>
Change in net assets of governmental activities as presented on page 3	<u>\$ 3,688,775</u>
