FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT

SEPTEMBER 30, 2014 AND 2013

INDEPENDENT AUDITORS' REPORT

The Board of Directors
National Fisheries Corporation:

Report on the Financial Statements

We have audited the accompanying financial statements of the National Fisheries Corporation (the "Company" or "NFC"), a component unit of the FSM National Government, which comprise the statements of net position as of September 30, 2014 and 2013, and the related statements of revenues, expenses and changes in net position and of cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Taiyo Micronesia Corporation (TMC), the Company's investment in which is accounted for by use of the equity method. The accompanying financial statements of the Company include its investment in the net assets of TMC of \$890,113 and \$740,363 as of September 30, 2014 and 2013, respectively, and its equity method income from TMC of \$474,750 and \$601,000 for the years then ended. Those statements for the years ended December 31, 2014 and 2013, which were prepared in accordance with accounting principles generally accepted in Japan, were audited by other auditors, whose report has been furnished to us. We have applied audit procedures on the conversion adjustments to the financial statements of TMC, which conform those financial statements to accounting principles generally accepted in the United States of America. Our opinion, insofar as it relates to the amounts included for TMC, prior to these conversion adjustments, is based on the report of the other auditors and the procedures that we considered necessary in the circumstances with respect to the inclusion of the Company's equity investment and equity method income in the accompanying financial statements taking into consideration the differences in fiscal years.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audits and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of National Fisheries Corporation as of September 30, 2014 and 2013, and the changes in its net position and its cash flows, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter Regarding Going Concern

The accompanying financial statements for the year ended September 30, 2014 have been prepared assuming that the Company will continue as a going concern. As discussed in Note 8 to the financial statements, the Company is experiencing difficulty in generating sufficient cash flow to meet its obligations and sustain its operations, which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also discussed in Note 8 to the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 to 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 26, 2015, on our consideration of Company's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Company's internal control over financial reporting and compliance.

Management's Discussion and Analysis
September 30, 2014 and 2013

This section of the National Fisheries Corporation's (NFC) annual audit report presents the Management's Discussion and Analysis (MD&A) for the fiscal year ended September 30, 2014. MD&A is supplementary information required by the Government Accounting Standards Board Statement 34 (GASB 34). The preparation of the MD&A is the responsibility of the management of NFC, and is designed to help the reader in understanding the accompanying financial statements and notes to the financial statements.

Background

The National Fisheries Corporation is a government owned corporation, created under Public Law No. 3-14 by the 3rd Congress of the Federated States of Micronesia (FSM). The main purpose of NFC is involved in ancillary activities that support commercial fishing activities. It is for this purpose that NFC initially engaged itself with its Subsidiaries; Yap Fresh Tuna, Inc. (YFTI), Chuuk Fresh Tuna, Inc. (CFTI), Kosrae Sea Ventures, Inc. (KSVI) and Micronesia Longline Fishing Co. (MLFC). However, due to the drastic decline in the number of vessels utilizing YFTI and CFTI, NFC was forced to venture into actual operation of longline fishing vessels, trading of fishing supplies and an aircraft business, during the mid 1990s and early 2000s. All the above subsidiaries ceased operations since late 1990s.

Because of the unavailability of financial data from NFC subsidiaries, balances from these investees' were excluded from NFC financial statements.

Overview of Fiscal Year 2014

The accounts of NFC are organized as a proprietary fund. Proprietary funds are used by governmental units that are operated in a manner similar to private business enterprises.

For the current year, NFC corporate office activities includes consolidated activities from management and support services to its two (2) joint venture corporations.

2014 revenue sources of NFC operations are \$463k of management fees from Kasar Fishing Corporation (KFC) and Taiyo Micronesia Corporation (TMC). During this year, NFC also generated \$39k from other operating income.

For the past three (3) fiscal years, NFC's budgets have been submitted to the NFC Board of Directors for its approval since the National Government has ceased providing funding assistance to NFC.

Financial Highlights

NFC started implementing the financial reporting standards in accordance with Government Accounting Standards Board (GASB) principles in fiscal year 2003. Adopting the GASB principles provide the new financial report of the following basic financial statements:

1. Statement of Net Position (SNP)

SNP presents what NFC owns (assets), owes (liabilities) and the net position (the difference between total assets and total liabilities) at the end of the fiscal year. The "net position" is one indicator of whether the current financial condition has improved or worsened during the year.

Management's Discussion and Analysis
September 30, 2014 and 2013

Economic Outlook

The Company has incurred substantial losses from its regular operations including investments with Micronesia Longline Fishing Company (MLFC), Kosrae Sea Ventures, Inc. (KSVI), Chuuk Fresh Tuna, Inc. (CFTI), Yap Fresh Tuna, Inc. (YFTI). The accumulated losses of NFC from its investments have severely affected NFC's regular operations. These conditions raise substantial doubts about the Company's ability to continue as a going concern business entity. Given that the investments were no longer in operation and no financial records are available for too long, the NFC Board and Management, plan to take the necessary steps to remove them from the NFC books. Moreover, FSM National Government stopped providing a subsidy to NFC for the past 5-6 years.

NFC management recently established a joint venture with a Japanese purse seiner company, New Eikyu Gyogo Co., Ltd. and TAFCO, and formed Kasar Fishing Corporation (KFC) and Taiyo Micronesia Corporation (TMC), respectively, a purse seiner companies to operate and fish in the FSM EEZ and areas under the FSMA regional agreement. Said joint venture operations are expected to generate sufficient added income to render NFC a self-supporting company in the years to come.

Long term plans for development include expanding the operations of KFC and TMC by adding more purse seiner fishing vessels by the end of 2015 and ventures into other fishing operations with other interested foreign fishing companies.

NATIONAL FISHERIES CORPORATION

Notes to Financial Statements
September 30, 2014 and 2013

(1) Reporting Entity

The National Fisheries Corporation (NFC) was created under FSM Public Law No. 3-14 by the third Congress of the Federated States of Micronesia (FSM).

The purpose of NFC is to promote the development of commercial pelagic fisheries and related industries within the Federated States of Micronesia's 200 mile Exclusive Economic Zone. NFC is also involved in ancillary activities that support commercial fishery activities. These activities include technical and infrastructure services, manpower training and other related activities promoting commercial fisheries development.

NFC is a discretely presented component unit of the FSM National Government. The financial statements of NFC are incorporated into those of the FSM National Government. Debts and obligations of NFC are not obligations of the FSM National Government unless specifically authorized by the FSM National Government. To date, no such authorization has been made.

(2) Summary of Significant Accounting Policies

GASB issued Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, which was subsequently amended by Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus*, and modified by Statement No. 38, *Certain Financial Statement Note Disclosures*. These statements establish financial reporting standards for governmental entities which require that management's discussion and analysis of the financial activities be included with the basic financial statements and notes and modify certain other financial statement disclosure requirements.

To conform to the requirements of GASB Statement 34, net position are presented in the following categories:

- Net investment in capital assets; capital assets, net of accumulated depreciation, plus construction or improvement of those assets, net of outstanding obligations related to those capital assets.
- Unrestricted; net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Directors or may otherwise be limited by contractual agreements with outside parties.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies, Continued

Basis of Accounting

Proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of the fund are included in the statements of net position. Proprietary fund operating statements present increases and decreases in net total assets. The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues are reported as nonoperating. Operating expenses includes the cost of sales and services, administrative expenses, and depreciation on capital assets. Expenses not meeting this definition are reported as nonoperating expenses.

Cash

Custodial credit risk is the risk that in the event of a bank failure, NFC's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. NFC does not have a deposit policy for custodial credit risk.

As of September 30, 2014 and 2013, the carrying amount of NFC's total cash was \$631,449 and \$317,246, respectively, and the corresponding bank balances were \$873,198 and \$318,812, respectively, all of which were maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. As of September 30, 2014 and 2013, bank deposits in the amount of \$258,525 were FDIC insured. NFC does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk. NFC has not experienced any losses in such accounts and management believes it is not exposed to any significant custodial credit risk on its deposits.

Investments and Business Development

NFC, in prior years, has invested in various joint ventures with respective agencies in the four states of the FSM which are directly involved in the exploitation and development of the FSM's fisheries industry. The NFC involvement in these joint ventures varies in nature.

NFC has previously been directly involved in the management of certain joint ventures through management and marketing agreements entered into with the respective parties. The investment in Micronesia Longline Fishing Company (MLFC), Yap Fishing Corporation (YFC), Yap Fresh Tuna, Inc. (YFTI), Chuuk Fresh Tuna, Inc. (CFTI), and Kosrae Sea Venture Inc. (KSVI) are accounted for using the equity method and, accordingly, the carrying values of these investments have been reduced to \$0. In 2014 and 2013, financial statements for these joint ventures were not available. Management has asserted that it is unable to control these joint ventures and does not believe that it is liable for any additional losses of these entities that may occur.

(2) Summary of Significant Accounting Policies, Continued

Investment and Business Development, Continued

On March 3, 2012, NFC invested \$75,000 in Taiyo Micronesia Corporation (TMC). The equity investment in TMC represents 750 shares of common stock and a 25% ownership interest. The investment in TMC is accounted for by use of the equity method.

Receivables

Receivables from fishing and ancillary activities are based on contracted prices, which are both interest free and uncollateralized and are primarily due from government agencies, businesses and individuals located within the FSM. The allowance for doubtful accounts is stated at an amount which management believes will be adequate to absorb possible losses on accounts receivable that may become uncollectible based on evaluations of the collectability of these accounts and prior collection experience. The allowance is established through a provision for uncollectible receivables recorded in the statements of revenues, expenses and changes in net position. Bad debts are written off against the allowance on the specific identification method.

Property and Equipment

Property and equipment are stated at cost or estimated historical cost, less accumulated depreciation. Donated fixed assets are recorded at estimated fair market value at the date received. The provision for depreciation is computed by the straight line method over the estimated useful lives of the assets, ranging from 10 to 15 years depending on the nature of the asset. A singular piece of equipment, vehicles, office equipment, etc. that equals or exceeds \$5,000 is capitalized, except for those assets of the investees, where no set threshold for capitalization of fixed assets has been established.

Compensated Absences

Vested or accumulated vacation leave is recorded as an expense and liability as the benefits accrue to employees. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

Revenue Recognition

NFC's primary source of revenue is derived from management fees from the venture businesses. Management fees are determined based on the monthly billing from the venture businesses and considered earned every month. Other revenue is recorded when earned and measurable.

As of September 30, 2014 and 2013, management fee from Kasar Fishing Corporation (KFC) is 62.16% and 64.49%, respectively, of the total operating revenue. As of September 30, 2014 and 2013, management fee from TMC is 37.84% and 35.51%, respectively, of the total operating revenue.

New Accounting Standards

During the year ended September 30, 2014, NFC implemented the following pronouncements:

- GASB Statement No. 66, *Technical Corrections - 2012*, which enhances the usefulness of financial reports by resolving conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting. The implementation of this statement did not have a material effect on the accompanying financial statements.
- GASB Statement No. 67, *Financial Reporting for Pension Plans*, which revises existing guidance for the financial reports of most pension plans. The implementation of this statement did not have a material effect on the accompanying financial statements.
- GASB Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, which requires a state or local government guarantor that offers a nonexchange financial guarantee to another organization or government to recognize a liability on its financial statements when it is more likely than not that the guarantor will be required to make a payment to the obligation holders under the agreement. The implementation of this statement did not have a material effect on the accompanying financial statements.

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, which revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. The provisions in Statement 68 are effective for fiscal years beginning after June 15, 2014. Management does not believe that the implementation of this statement will have a material effect on the financial statements of NFC.

In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*, which improves accounting and financial reporting for state and local governments' combinations and disposals of government operations. Government combinations include mergers, acquisitions, and transfers of operations. A disposal of government operations can occur through a transfer to another government or a sale. The provisions in Statement 69 are effective for fiscal years beginning after December 15, 2013. Management has not yet determined the effect of implementation of this statement on the financial statements of NFC.

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, which addresses an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions in Statement 71 are effective for fiscal years beginning after June 15, 2014. Management does not believe that the implementation of this statement will have a material effect on the financial statements of NFC.

(6) Notes Payable, Continued

Changes in debt during the years ended September 30, 2014 and 2013 are as follows:

<u>Balance at Beginning of Year 2014</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance at End of Year 2014</u>
\$ <u>3,600,000</u>	\$ <u> -</u>	\$ <u>250,000</u>	\$ <u>3,350,000</u>

\$ <u>3,600,000</u>	\$ <u> -</u>	\$ <u> -</u>	\$ <u>3,600,000</u>

(7) Contingencies

NFC is party to various legal proceedings arising from operations. External legal counsel represents that the ultimate outcome of the lawsuits cannot be predicted at this time; therefore, no provision for any related liability has been made in the financial statements.

NFC is ultimately liable for Micronesia Longline Fishing Company's (MLFC) loan payable to the Asian Development Bank. MLFC has defaulted on this loan; however, the FSM National Government has been making required debt service payments on behalf of NFC and it is not possible to predict the ultimate outcome of this matter. No provision for this matter has been made in the accompanying financial statements. The MLFC debt is, instead, recorded in the financial statements of the FSM National Government.

(8) Going Concern

NFC has incurred substantial losses from operations. This condition raises substantial doubt about its ability to continue as a going concern. NFC, as a component unit of the FSM National Government, is dependent on the FSM National Government for its cash flows. The FSM National Government has introduced legislation to dissolve NFC and the ultimate impact of this matter on the accompanying financial statements is uncertain. Additionally, the same measure seeks to transfer NFC's holdings in joint ventures to applicable State governments. Management is working with the FSM Congress in relation to this matter and is seeking forgiveness of its debt to the National Government.

(9) Equity Investment in TMC

Changes in NFC's equity investment in TMC during the years ended September 30, 2014 and 2013 follows:

Investment balance as of October 1, 2012	\$ 389,363
2013 dividends declared	(250,000)
Pro rata share of TMC 2013 income	<u>601,000</u>

(10) Subsequent Event

Subsequent to September 30, 2014, NFC, TMC and Nipponmaru Corporation entered into a management agreement wherein NFC would receive monthly management fees of \$12,500 from TMC starting in April 2015.

\$700,000 of dividends were declared by TMC in March 2015. NFC's share is 25% or \$175,000.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTER BASED ON AN AUDIT PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Board of Directors
National Fisheries Corporation:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of National Fisheries Corporation (the "Corporation"), a component unit of the FSM National Government, which comprise the statement of net position as of September 30, 2014, and the related statements of revenues, expenses and changes in net position, and of cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated May 26, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
