

## PASAI Country Mission Visit- SAI PMF

PALIKIR, POHNPEI - On November 14, 2022, The Office of the National Public Auditor received Director (North), Doris Flores Brooks (former Public Auditor of Guam), of the Pacific Association of the Supreme Audit Institution (PASAI) who travelled to Pohnpei to conduct the country mission visit. The one-week visit included separate sessions at our office as well as the Pohnpei state OPA.

The main topic of discussion was the Supreme Audit Institution (SAI) Performance Measurement Framework (PMF) and the results of the assessment that was performed on our office a few years ago. Sessions were held to understand our current implementation status and action plan to address those areas that are yet to be implemented under selected domains of the above framework.

The PASAI visit was successful as the ONPA was able to complete the action plan to address the remaining issues found under the SAI-PMF assessment. We wish to acknowledge Doris and PASAI for their continuous support and also to all ONPA staff for the efforts put into implementing the findings of the SAI PMF report over the years up to this point. We are determined as an office to continue to address the remaining issues to help our office better serve our people in the area of accountability and transparency.
