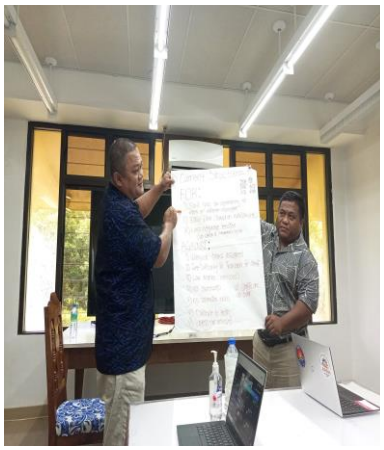
2023 Annual Audit Planning Workshop


Our annual audit planning workshop was held from September 6 – 8, 2023 at the FSM Congress Library. It was opened by the Public Auditor Mr Hainrick who shared afew words to commend the participants and share his expectations and well wishes. The participants were senior audit staff, audit managers and the audit supervisor. The purpose of the workshop was to assess FY2023 performance and discuss audit operational matters such as identifying projects/programs to be audited and forming the teams to conduct the engagements in FY2024. Discussions also included challenges and recommendations, APIPA peer review, TeamMate software issues and quality assurance. The workshop was instrumental for developing our Audit Annual Workplan for FY2024 and also the ONPA operational plan. Overall, it was a successful workshop as we achieved our targeted outputs and collaborated for the improvement in the audit division.
