

MICARE AWARENESS SESSION

Due to Micare's new premium health insurance rates and its amendments, the Office of the National Public Auditor's was privileged for Micare to have an awareness session with the team on the topic along with the changes and what is to be expected of the new premium rates. The session was held on August 15, 2024, at 10:00 am, by Micare representatives Christina and Caroline. The premium packages include Nonreferral, Basic, Basic Plus, Reticare, Supplemental, and Supplemental Plus. As of October 1st, 2024, all will be eligible for the listed premium benefits. During Christina's presentation the ONPA office was able to address questions and concerns that they had regarding the recent changes. The session ended with a group photo acknowledging those who participated in the Micare awareness session.

The FSMOPA thanks both Christina and Caroline for taking the time to meet with the office on this important topic. We also thank Micare for providing easy to understand health coverages at affordable costs to our islands.
