

## **Audit Supervisor Robert (Bob) Hayes Ends His 2-Year Tour of Service at the National OPA**

It has been a tradition for the National OPA to honor the departure and arrival of an OPA staff. April 4, 2013 marked Audit Supervisor Robert (Bob) Hayes' last day of work with OPA. Prior to Bob's final day, the office staff got together at the Nantehlik (PCR) restaurant for a special luncheon to commemorate the departure of their late audit supervisor.

Bob had contributed a lot to OPA. He had played a major role in carrying out audit assignments over the past two years. In addition, he also conducted a six month in-house training that broadens the staff's knowledge in auditing. His contribution to staff capacity development will be evident in the staff's audits now and in the coming years.

Representing the OPA, Public Auditor Haser Hainrick extended his appreciation to Bob and his wife for the precious time they spent in the FSM. As the meals were served, more remarks followed acknowledging the staff's gratitude to Bob and Carol for their services in the FSM particularly for Bob's at the OPA.

The staff of the National OPA will truly miss Bob for he has been a valuable asset in the office. We wish them a safe journey back to Kentucky, USA, and may they find success in their future endeavors.
