

OFFICE OF THE NATIONAL PUBLIC AUDITOR

Media Release No. 2026-09

May 20, 2026

The Office of the National Public Auditor (ONPA) has issued the financial audit report for The Adaptation Fund Project, Enhancing the Climate Change Resilience of Vulnerable Island Communities in the Federated States of Micronesia (the “Project”) for the year ended December 31, 2024. The Project is implemented by the Department of Environment, Climate Change, and Emergency Management (DECEM) of the National Government of the Federated States of Micronesia (FSM), with financial administration support provided by the Department of Finance and Administration (DoFA).

The project’s overall objective is to strengthen the social, ecological, and economic resilience of vulnerable island communities in the FSM. This objective is achieved through activities focused on water and coastal resource management, development planning, and the promotion of climate-resilience livelihoods, with integrated gender considerations.

Two findings were identified and discussed with key management for the Project at DECEM. We requested their official management response, which they provided, generally agreeing with the findings and recommendations.

A digital copy of our current audit report No. 2026-09 is available on our official website, or you can read the report by clicking [HERE](#)
